## Stainless Steel Milk Can

King International stainless steel milk cans are designed to meet the stringent requirements of the dairy industry, providing a reliable and efficient solution for milk storage and transportation. With their durable construction, hygienic design, and range of capacities, these milk cans are trusted by dairy farmers for maintaining the freshness and quality of milk.

- 🔧 Geeta Fab S.S. Milk Cans available in 2, 3, 5, 6, 10, 15, 20, 30, 40, 50L Capacity
- 🔧 Every Milk Can passes through stringent quality control tests at various stages of manufacturing before it reaches you.
- 🔧 Tig welding process is used with purging to give fine welding quality.
- 🔧 All the Milk Cans are made caring hygienic point of view giving mirror polish.
- 🔧 S.S. Milk Can is made from AISI 304 (S30400) Grad 8/18 AISI Stainless Steel material only.
- 🔧 S.S. Milk Can dimensions are close to the aluminium alloy Milk Can (IS:1825-1983).

Size: 50L | 40L | 20L | 10L | 5L | 3L | 2L

## Technical Specifications for Milk Can

Capacity in Litres	5 L ± 5%	10 L ± 5%	20 L ± 5%	25 L ± 5%	40 L ± 5%
Approx. Weight of the Can with Lid	0.900 kgs	1.8 kgs	5.5 kgs	6.5 kgs	8.4 kgs
Inside Dia of Body	176 ± 3mm	234 ± 3 mm	280 ± 3mm	280 ± 3 mm	340 ± 3mm
Inside Dia of Neck	131 ± 1 mm	173 ± 1mm	200 ± 1mm	200 ± 1 mm	200 ± mm
Overall Height	250 ± 4mm	286 ± 4mm	435 ± 4 mm	535 ± 4mm	591 ± 4 mm
Overall Height	250 ± 4 mm	286 ± 4mm	435 ± 4mm	535 ± 4mm	591 ± 4mm
Dia of Base	177 ± 3mm	235 ± 3mm	285 ± 3mm	285 ± 3mm	345 ± 3mm

## Stainless Steel Milk Cans

Available Size: 2 to 15 Ltr Milk Pails

## Stainless Steel Locking Milk Cans

Stainless steel locking milk cans have revolutionized the dairy industry by providing a secure and efficient way to store and transport milk. These cans are specifically designed to maintain the freshness and quality of milk while ensuring its safety during transportation.

Traditionally, milk was stored and transported in cans made of materials like aluminum or plastic. However, stainless steel has emerged as the preferred material due to its numerous benefits. Stainless steel offers excellent durability, corrosion resistance, and easy cleaning, making it an ideal choice for milk storage containers.

One of the key features of stainless steel locking milk cans is their secure locking mechanism. The cans are equipped with a robust locking system that prevents any unauthorized access to the contents. This ensures that the milk remains uncontaminated and maintains its integrity throughout the journey from the farm to the processing facility or retail stores.

## Stainless Steel Milking and Melasty Cans

Size: 15L | 20L | 25L

Stainless steel milking machine cans are the most common and preferred choice in modern milking systems. They are highly durable, easy to clean, and resistant to corrosion. Stainless steel cans are known for their hygienic properties, as they can withstand high-temperature cleaning and do not retain odors or flavors. They come in different capacities to suit various milk production volumes.

**S.S. Milking Bucket with Gasket & Different Type of Lid are available in AISI 304 Grade**

## Stainless Steel Funnel

- ☞ S.S. Funnel is made from AISI 304 grade stainless steel.
- ☞ It filters & flow out the milk to drop rapidly due to its unique design.
- ☞ It is very easy to handle & it can be hooked anywhere.
- ☞ All the dimensions are as per NDDDB specification.

## Stainless Steel Liquid Measure Set

- ☞ Liquid Measure Sets are made from AISI 304 grade S.S.
- ☞ Available in 50ml. to 2 ltrs.
- ☞ Available in both round and long handle.

## Stainless Steel Milk Collection Tray

- ☞ Introducing first time in India s per NDDDB specification.
- ☞ Tray is one piece moulded.
- ☞ It is specially designed for free flow of milk while using on the plate form.

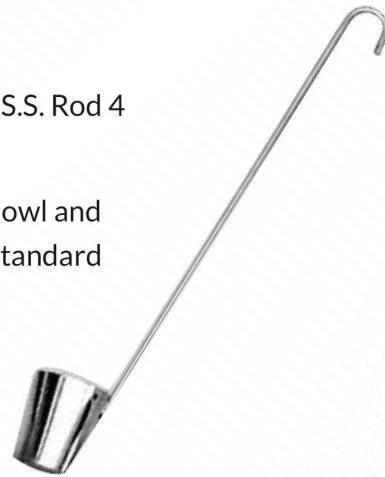

## Stainless Steel Sample Bottle

- It is manufactured from S.S. Sheet AISI 304 Grade as per NDDB Standard of DCS ACC 04 Drawing
- It has appealing look with a firm finger grip at top, also each bottle uniformly demarcated with groove 5 mm at the top.

## Stainless Steel Sampler

- It is made out of S.S. 304 Grade Sheet and S.S. Rod 4 mm Dia.
- Inside 150 grid finish done from inner of Bowl and Height of sampler bottle with Rod as per standard NDDB drawing DCS ACC 04.

*Milk Storage Cans are the  
most preferred across the country because  
it is built in such a way to be appropriate for dairy farms  
and its allied functionaries under Indian conditions.*
